

General Terms of Warranty for PVC window and door joinery

§1

1. This warranty shall be applicable for window and door frames produced by the "Bob-Rollo" Sp. z o. o. company, hereinafter referred to as "**the Producer**".
2. A detailed list of products under this warranty shall be specified by the parties in the Sales Agreement in each particular case.
3. Signing this Agreement is tantamount with the acceptance of these conditions.

§2

1. **The Producer** grants **the Customer** a warranty regarding his products, designed and manufactured according to the company standards.
2. The guarantee covers defects in material and workmanship. The start of the warranty period is the date on which the Product was sold to the Customer. It shall be indicated in the sales note (sales invoice).
3. Warranty period:
Window and door frames:
a/ when installed by a competent team, authorized by the Producer – **5 years**.
b/ when installed by **the Customer** – **1 year**.
Accessories: locks, patent lock inserts, window sills, shutters, blinds – **1 year**.
Plaster coating: 1 year.
4. External defects reported after more than two calendar days from signing the Acceptance Protocol are excluded from the herein warranty.
5. The warranty does not cover: mechanical damages, effects of harmful chemicals, protective tape, normal wear and tear, minor defects which do not affect the product performance, damages caused by random events, fractures or cracks, fogging (on the inside or on the outside of the room) caused by an inadequate ventilation or weather conditions, glass defects, to the extent allowed by applicable standards: (PN-EN-1279-1-6, PN-EN-12150-1:2002, PN-EN ISO 12543-(1:6):2000, PN-EN 357:20052, PN-EN 365:2000, PN-EN 1096-1), fixture damages caused by dust/dirt, incorrect operation or installation unauthorized by **the Producer**. **The Customer** is responsible for preparing the right installation site. This Warranty does not cover damage due to improper storage or harmful environmental influences (particularly external moisture).
6. Spaces that are only slightly heated, with high moisture levels or with limited ventilation can cause "condensation" on the surface of the glass which has the lowest temperature in the room. In case of strong frost, the water may even freeze between the glass and the gasket. The best solution to this problem is to improve the building ventilation (more air conditioning machinery, more frequent ventilation)
7. This warranty does not cover any products manufactured at the request of **the Customer**, which do not come up to the production standards (in not recommended dimensions).
8. The PVC windows shall have an internal ventilation and drainage system: the frame located on the bottom horizontal plane is equipped with weep holes. Their objective is to remove the water that can easily get inside the window during precipitation. Please make sure the holes are free from blockage (dust/dirt) and that their outlet is designed for maximum ease of free water flow on a window sill. It is an

unacceptable practice to install external window sills above the weep holes.

9. Slight deviations in the shape of the profiles are permissible when exposed to direct sunlight, especially in the case of profiles with a dark color.
10. It is possible that the muntin bars pivot from horizontal or vertical orientation (by a few millimeters), because of the temperature rise, which makes them longer and you can hear the ringing due to vibration in the environment.
11. The Customer is obliged to read the instructions for operation and maintenance of the delivery item, and in case of any doubts, he should consult with "**Bob-Rollo**" Sp. z o. o. The warranty is invalidated if a fault arises due to incorrect operation.
12. The warranty does not cover maintenance or current regulations. The Customer is obliged to control the product regularly.
13. It is recommended to remove the protective foil and tape right after the installation.
14. If the installation is made by an authorized team of Bob-Rollo Sp. z o. o., **the Producer** is obliged to make adjustments during installation and one free adjustment within 90 days from the date of signing the Acceptance Protocol, at the Customer's request. After this date, **the Customer** shall make the adjustments at this own cost or with the support of "**Bob-Rollo**" Sp. z o. o. for an extra charge.
15. The warranty does not cover products or parts, to which **the Customer** has obtained a price reduction due to permanent defects.

§3

1. The warranty comes into force as soon as **the Producer** has received a written complaint from **the Customer**, requesting to remove the fault at no additional cost.
2. A misuse of warranty, unnecessary, illegitimate call for maintenance at **the Customer's** request may result in the application for reimbursement of expenses, including travel and labor costs. according to the valid price list.

§4

1. Complaints should be submitted in person ("**Bob-Rollo**" Sp. z o. o. O/Rumia, Sobieskiego 14), by email (serwis@bobrollo.com.pl), or by post: "**Bob-Rollo**" Sp. z o. o. 84-230 Rumia, Młyńska 8, only in writing.

The complaint should include:

- date and place of complaint,
 - name and last name of the complainant,
 - address at which the claimed goods are accessible,
 - date of purchase and invoice number,
 - other contact details (telephone/ fax number, e-mail address),
 - damage description,
 - legible signature of the complainant.
2. A complaint notification form is available at: www.bobrollo.com.pl
 3. The date of reporting the complaint shall be the date of signing the complaint form. **The Customer** shall use the **Producer's** warranty, exclusively within the territory of the Republic of Poland.

§5

1. Acceptance of the complaint shall not oblige **the Producer** to remove the defects. Within 14 days from reporting the defects, **the Producer** shall provide information to **the Customer** on any further actions.
2. **The Producer** may wish to receive additional information from **the Customer**, related to defects.
3. Each time, **the Customer** shall provide access to the complained product, for the purpose of visual inspection and to have it repaired.
4. The lack of such access in time shall be treated as the waiver of claims.

§6

If it has not been possible to remove the defects before, repairs will be made within 1 (one) month from the date of the acknowledgment of receipt of the complaint. **The Producer** shall take all efforts to remove the defects as soon as possible.

§7

1. As evidence of providing warranty, **the Producer** shall issue a Warranty Card.
2. The warranty comes into force if a Warranty Card or proof of purchase (invoice) is shown.
3. The placing of a claim shall not withhold payments resulting from the agreement signed. Unpaid goods are not subject to the warranty.
4. Modified or illegible Warranty Card may be considered null and void.

§8

Unauthorized alterations to the product during the warranty period shall void all rights to any warranty claims.

The product is covered by the warranty provided regular check-ups for a fee (adjustment + window hardware maintenance), at least once a year.

§9

Any possible repairs carried out by **the Producer** should be properly indicated in the warranty card.

The Customer shall confirm it with a signature in the proper place of the warranty card.
